

## FLEX B- 2790

Triple Clamp. Universal guardrail thanks to the versatility of its clamp.

It can be installed on all types of surfaces, whether they are flat, inclined or vertical. The B-2790 is equipped with double threaded bar and, unlike other products on the market, does not need anchors if installed on horizontal or vertical surfaces.

Depth of the clamp: 42cm.

Certified in accordance to EN 13374:2013 class A & class B.
